Nursultan Nazarbayev, President of the Republic of Kazakhstan, with students during a visit to KIMEP on April 2, 2008

THE PRESIDENT OF KAZAKHSTAN ON KIMEP

"It gives me great pleasure to see the conditions you study in... and I envy you for the fact that you have such wonderful opportunities... I'm very sorry that in my time there wasn't a university like this."

"Everything here is done to the highest standards; there's no need to go abroad to study."

*His Excellency the President of the Republic
of Kazakhstan,
Nursultan Nazarbayev*

KIMEP

A MESSAGE
FROM
THE PRESIDENT
OF KIMEP

A MESSAGE
FROM THE DEAN
OF ENROLLMENT
MANAGEMENT

I am delighted to present the 2009-10 KIMEP prospectus. KIMEP has been at the forefront of Kazakhstan's development and growth since the country came into being. From its small-scale beginnings as an institute offering graduate degrees, KIMEP has developed into the leader in the higher education market in Kazakhstan. We are an institution with a local and global reputation for excellence.

KIMEP is an institution where students come first. Our multi-cultural team of outstanding faculty and professional staff consistently focus on quality and breadth in all areas of teaching, learning and support services. We will offer you comprehensive, personalized support from the moment you take an interest in studying at KIMEP to well after the day you graduate.

KIMEP is constantly moving forward. We are making sustained progress towards obtaining international accreditation from a leading US accreditation body, and have a dedicated program of investments in our facilities and human resources.

The system of course scheduling is designed to be student-centered and flexible, giving students the maximum possible freedom in course selection, managing academic load and even in what time they take a certain class. Every semester our 5000 students are offered a choice of more than 300 courses for around 800 sections.

Our innovative undergraduate and graduate programs, all of which are fully attested by the Ministry of Education and Science of the Republic of Kazakhstan, are based on the US-style credit unit system, allowing our students to study at their own pace and tailor their education to match their own specific needs. However, KIMEP offers much more than simply degree programs: a vibrant student life on and off campus and a wide range of extracurricular opportunities contribute to a truly unique study experience.

Our highly trained admissions staff will be happy to answer any questions you may have. Find out why thousands of KIMEP alumni value the education they invested in, and how it has shaped their careers and their personal development.

Our alumni are recruited by leading local and international firms and organizations throughout the Central Asian region and the world, where they are prized for their language skills and their high level of professional preparation.

We encourage you to come to our campus and see KIMEP yourself. Visit us at any time that suits you – either make a personal appointment with your regional Admission Officer or attend one of our regular scheduled guided tours of the campus throughout the week.

Whatever stage you are at in your career, whatever your goals are in life, we have something to offer you. Come to KIMEP and invest in your future!

You can continue to explore KIMEP online via our website, www.kimep.kz, and please visit us soon.

If you have big ambitions for your career and personal development, KIMEP is your best choice!

Chan Young Bang, Ph.D.

Larissa Savitskaya, M.Ed, MPA

ALMATY

KAZAKHSTAN

Kazakhstan is among the fastest developing nations of the CIS, having posted double-digit economic growth in each of the last four years. The booming economy is driven by oil, the financial services and real estate development.

Almaty, which in Kazakh means 'City of Apples,' is the key engine of the nation's economic growth. Positioned as the international business capital of Central Asia, the city is the regional headquarters location for major international companies such as KPMG, Deloitte, Proctor and Gamble, PricewaterhouseCoopers, and many others.

The dynamism of the economy is matched by the breathtaking variety of the environment. Residents of Almaty are only 30 minutes from the 20,000 foot mountains of the Tien Shan to the South and 30 minutes from the dramatic emptiness of the steppe which runs north to Siberia.

Located six hours' flying time from Western Europe, coastal China and South East Asia and four hours from the growing influence of the Gulf States, Almaty is easily accessible from all the new growth centers of the rapidly changing global economic map.

Almaty is a truly cosmopolitan city, with representatives of more than 130 ethnic groups mingling to form its population of 1.5 million. International standard services are developing rapidly alongside traditional services, providing a rich cultural mix. As the business center and host to the majority of the region's international community, Almaty has developed the social and entertainment amenities that characterize such cities. Residents of Almaty have access to a wide range of fine dining, nightclubs, classical music and cafes, as well as outdoor sports opportunities including skiing, hiking, and watersports.

WHY STUDY AT KIMEP?

- Be a part of a tradition of educational excellence that began with the country's founding
- Enjoy a state-of-the-art educational experience supported by modern infrastructure and cutting-edge teaching and learning technologies
- Gain key knowledge and skills to contribute to and lead organizations
- Gain fluency in a key internationally utilized language: English
- Study at an institution with a growing domestic and international reputation for excellence
- Benefit from a world-class faculty: KIMEP boasts the highest concentration of Western terminal degree holders of any academic institution in the CIS
- Become a part of the international educational community: benefit from exchange programs and partnerships with leading universities worldwide
- Take advantage of a wide range of extra-curricular opportunities to broaden your personal development outside the classroom
- Enjoy enviable career options upon graduation: 95% of KIMEP graduates are employed by leading local and international companies within three months of leaving us
- Benefit from lifelong support from KIMEP's Career and Employment Center

A HISTORY OF EXCELLENCE

1992 KIMEP is founded by resolution of the President of the Republic of Kazakhstan, Nursultan Nazarbayev. Dr. Bang is appointed as the first Executive Director.

MBA and MA in Economics programs launched.

1993 MPA program launched.

1994 The first class, consisting of 81 MBA and MA students, graduates from KIMEP.

1998 The International Executive Center is created with help from McGill University, Montreal.

1999 KIMEP introduces four-year bachelor programs in Business Administration and Social Sciences. The first 424 undergraduate students begin their classes.

2000 The Ministry of Education and Science grants KIMEP a permanent state license to conduct educational activity in the field of higher and graduate education.

KIMEP launches a BA in Economics program.

2001 KIMEP becomes the first institution in Central Asia to implement a US-style credit system for all Academic programs.

On-line registration system introduced.

2002 Renovation of Academic Buildings completed, creating a state-of-the-art campus.

Academic Programs are attested by the Ministry of Education and Science.

Exchange and collaboration programs with leading American, European and Korean Universities launched.

KIMEP Launches a Masters program in International Relations and a Master of Arts in

International Journalism and Mass Communication.

2003 BA in International Journalism launched.

Academic Departments restructured into three Colleges: The Bang College of Business, the College of Social Sciences, and the College of Continuing Education.

2004 KIMEP is awarded the 'Platinum Tarlan' award in the 'Enlightenment' category. KIMEP is the only institution of higher education in Kazakhstan to be awarded this prize, which is the highest level of independent award given in Kazakhstan.

The Bang College of Business is granted membership of AACSB International.

A joint MA in Economics with the University of San Francisco is launched.

2006 Doctor of Business Administration program launched.

New custom-built \$3m research library completed.

2007 KIMEP launches an MA in Teaching English to Speakers of Other Languages.

2008 KIMEP opens a new \$10m academic building.

President Nazarbayev visits KIMEP to tour the new academic building and library and meet students, faculty and administrators.

KIMEP recruits 29 new terminal degree holders to its faculty.

A School of Law opens and begins offering a minor in law to undergraduate students, with plans to launch an LLM in International Business Law in Spring 2009.

INNOVATIVE UNDERGRADUATE PROGRAMS

KIMEP offers six different US-style undergraduate degree programs, based on the credit system. One advantage of this is flexibility, as it allows you to tailor your study to match your own specific interests and career ambitions. The credit system also allows you to study at your own pace. For example, while an undergraduate program would normally take four years to complete, you can take longer to complete your studies should you need to. Another advantage is the broad scope of the curriculum. Of the 129 credits required for graduation from each of our undergraduate programs, 48 credits develop the math, science, critical thinking and writing skills necessary for career success. You will also gain extensive knowledge in your chosen major field, and have the chance to take free electives selected to reflect your personal interests. Most undergraduate students may choose a double major within their department or opt for a second major from another department within the

College to further broaden the scope of their education. In many programs you can also choose to graduate without a specialization, which will allow you even more freedom in the selection of elective courses and open up a wider range of employment opportunities upon graduation.

Many undergraduate programs at KIMEP require their students to take an internship as an integral part of their studies. Taking an internship will allow you to apply the knowledge learned in the classroom to real-life situations, ensuring that your education has a solid practical base and giving you valuable work experience before you even graduate. An internship also allows you to network and build contacts with potential future employers.

All undergraduate students at KIMEP are supported by dedicated advising centers at the college and KIMEP level, whose staff can assist in making important choices related to their program of study and future career.

Total Credits required for Graduation	129	129	129	129	129

INNOVATIVE UNDERGRADUATE PROGRAMS

Bachelor of Arts in Economics (BAE)

Play a leading role in Kazakhstan's economy

In four years and more than 40 intensive classes, this program will make you an expert in business or government. You'll learn why socialism in Central Asia gave way to markets; how the departure of migrants from Kazakhstan affected farm wages; why a housing bubble in Almaty suddenly burst.

You will conduct economic analysis on a micro and macro level. You will also learn what's happening in the economy today, and what to expect. You can specialize in Public Policy Economics or Business Economics, or both. Thus the program helps prepare you for a career in economics, finance, business or public policy – your choice.

Upon graduating, you will be qualified to become an economist for government or for a non-governmental organization; a manager for a bank, an investment house, or a consulting firm known around the world; a financial analyst or advisor; an analyst of Kazakhstan's energy sector or of its whole economy; a teacher or a graduate student; or an entrepreneur.

INNOVATIVE UNDERGRADUATE PROGRAMS

Bachelor of Arts in International Journalism (BAIJ)

Join Kazakhstan's leading undergraduate journalism program

The BAIJ is ideal for high school graduates interested in pursuing careers in the media. The program provides an entry point into the media industry, giving you practical online, broadcast and print journalism skills. It is supported by a well-equipped media laboratory that will allow you to acquire invaluable hands-on experience of journalism and the media. Our BAIJ program will give you the skills to enable you to work with the international media anywhere in the world.

Many of our graduates go on to launch careers in public relations. Our faculty includes both international journalists and PR specialists. The BAIJ program provides the ideal foundation for a career in this exciting, fast-growing, and lucrative area. As a student in this program, you will also

gain experience in media management, allowing you to go into publishing or other mass communication businesses as an owner, not just an employee.

As a student in the BAIJ program, you will major in International Journalism, and will be able to choose from specializations in Print, Broadcast and Online Journalism, Public Relations, or Media Management. You may also choose specializations from other allied departments.

Graduates of the BAIJ program go on to launch careers in newspaper and magazine writing and editing, radio and television news, or newsroom management. Many also find job opportunities with international organizations, multi-national companies and businesses as PR specialists.

INNOVATIVE UNDERGRADUATE PROGRAMS

Bachelor of Science in Business Administration and Accounting (BSc)

A unique business program in Kazakhstan

The Bachelor of Science in Business Administration and Accounting will prepare you to meet the needs of Kazakhstan's local and multinational businesses. You will complete a set of foundation courses which provide an integrated knowledge of all of the functional areas of business. In addition, you will receive advanced specialized training in the areas of your chosen major and minor. Majors and minors are currently offered in the fields of Accounting, Finance, Management, Human Resource Management, Marketing, Information Systems, and Operations Management.

Kazakhstani and international corporations alike are active recruiters of KIMEP business graduates, who are selected because of their solid theoretical knowledge in business and the hands on experience which forms an integral part of the course. In addition, the BSc curriculum uses a variety of educational techniques that develop

business skills within each and every BSc student. By the time you graduate you will have learned effective communication and interpersonal skills and will also have improved your critical thinking and problem – solving abilities – skills that will help your progress in any profession you choose to follow in the future.

BSc graduates are found in every sector of the economy, in both local and international companies, with the highest concentration working in the banking industry. On graduation, you will be able to launch a career as a project manager, financial analyst, system administrator, human resource specialist, accountant or brand manager, to name just a few. Many of our graduates also choose to continue their education and complete graduate degrees.

BCB student advising center

INNOVATIVE UNDERGRADUATE PROGRAMS

Bachelor of Social Sciences (BSS) in International Relations

Understanding global issues and diplomacy

The Bachelor of Social Sciences in International Relations will train you to be an expert in regional and global affairs and diplomacy. Students study international relations theory, foreign policy, diplomacy, security, terrorism, regional and global conflicts and conflict resolution. On top of the foundational courses in international relations theories and methodologies taken by all students, you will be able to choose a major in either Foreign Policy and Diplomacy or International Security. Alternatively you can choose to take a double major within the department or opt for a second major from another department within the College of Social Sciences.

International and Kazakstani governmental and non-governmental agencies actively recruit our graduates because of their unrivalled knowledge in the field of international relations. As with other programs at KIMEP, the BSS curriculum makes use of

state-of-the art teaching and learning technology designed to develop analytical skills in our students. By the end of the program, you will have learned effective communication and interpersonal skills and will have improved your critical thinking and problem solving abilities. These skills, taken together with the specialized knowledge you will have obtained in the field of international relations, will constitute a solid basis for leadership competencies and future career advancements.

Graduates of KIMEP's BSS in International Relations program typically go on to launch careers as international affairs analysts, experts in the consular service and diplomatic corps, advisors in international organizations, project managers, grants specialists, or teachers. The program will also provide you with a solid basis for successful graduate studies at leading universities abroad.

INNOVATIVE UNDERGRADUATE PROGRAMS

Bachelor of Social Sciences (BSS) in Political Science

Learning leadership skills in politics and beyond

The Bachelor of Social Sciences program in Political Science will train you to be a leader in the challenging arenas of national, regional and international politics. The course covers a wide range of topics, including political theories and systems, interest groups, issues and challenges to democracy, ethno-religious and cultural identities and conflicts, civil society, political economy and developmental issues. On graduation, you will have mastered a full range of fields and sub-fields in political science. In addition to acquiring a knowledge of political science theories and methodologies, you can also choose to major in either Comparative Politics or Central Asian Politics.

Our graduates are actively recruited by local, regional and international governmental and non-governmental agencies who value their training and hands-on experience in the field of political science.

On graduation you will not only have mastered the main concepts and theories in political science but will also have learned effective communication and interpersonal skills and will have improved your critical thinking and problem-solving abilities.

On completing the BSS in Political Science program, you will be able to work as a political analyst, an electoral campaign advisor, a political public relations expert, a risk consultant, a project manager in non-governmental organizations, or a grants specialist, as well as in many other challenging and fulfilling positions. Many of our students also go on to careers in academia: the BSS program provides a solid basis for successful graduate studies at leading universities abroad.

INNOVATIVE UNDERGRADUATE PROGRAMS

Bachelor of Social Sciences (BSS) in Public Administration

Prepare yourself for a career in business and government

A Bachelor of Social Sciences degree in Public Administration provides an academic and practical background for individuals pursuing a career in governmental, non-governmental, and business organizations. There are several areas of mutual reinforcement within these pursuits, so a BSS degree will give you a competitive edge and allow you to move easily into any of these areas, according to your own career interests. For example, you may start your career in government and later continue in future. A Public Administration degree gives you great flexibility in career change and adaptation.

Students can choose a major in Public Policy and Administration, Public Management, Financial Management, and Natural Resource Management, with minors in any of these areas and in Health Policy and Administration. In addition, students may choose a double major within the Department of Public Administration or opt for a second major from another department.

Our graduates usually go on to careers in national and local government as policy analysts and policymakers; in the United Nations and its regional agencies as representatives, consultants, reformers, and researchers; in the public service of Kazakhstan as administrators and functional experts; in administration within the private sector as departmental and regional managers; in international and local NGOs as managers and coordinators, with expertise in commerce, industry trade, agriculture, health, security, and other fields; in the diplomatic corps as diplomats and consular staff; in public finance and management as taxation and budgeting experts; in public and government relations management as experts in economics and social policies; and in academia as teachers, job trainers, researchers, and administrators.

KIMEP professors and staff

OUTSTANDING GRADUATE PROGRAMS

A graduate degree will further your knowledge in a specific area, and certifies a high level of expertise. International companies recruit candidates with western graduate degrees, meaning that there are job opportunities available to graduate degree holders that are not available to other graduates. Studying in a graduate program can significantly improve your prospects for employment and career progress.

KIMEP offers a diverse range of graduate programs delivered through four academic units, the Bang College of Business, the College of Social Sciences, the Language Center, and the School of Law. Taught and administered in line with the most rigorous international standards, KIMEP's graduate programs are all based on the US-style credit system, giving you maximum flexibility to tailor your studies to your own specific requirements. This system also allows you to study at your own pace. For example, graduate students at KIMEP take between 36 and 63 credits, depending on

the specific program, and normally study for two years. However, the credit system allows a large amount of flexibility – you are allowed up to five years to complete a master program should you wish to study at a slower pace. Students who have completed a bachelor program at KIMEP in a related field are eligible to transfer up to ten courses (up to 30 credits) to their master program, thus further shortening the time taken to complete the program. This means that should you choose to take both an undergraduate and a graduate program at KIMEP it is possible to obtain two degrees in five years.

All graduate students at KIMEP are supported by dedicated advising centers whose staff can assist in making important choices related to their program of study and future career.

Breakdown of Credit Requirements for Graduate Programs at KIMEP

OUTSTANDING GRADUATE PROGRAMS

Master of Arts in Economics (MA)

Training market economists for the new millennium

KIMEP's Master of Arts program in Economics is a pinnacle of excellence in graduate education in Central Asia and beyond. As a student on the MA program, you will learn how to anticipate recessions and recoveries in the region; how to determine the 'sweet' price that will maximize profits for your product; and how to evaluate a bank portfolio for economic risk. You will analyze how globalization affects Central Asia; how successful the regional transition to markets has been; and how the demand for - and supply of - oil and natural gas may evolve. You will learn from experienced professors who graduated from the world's leading universities. You will study on a graduate program that compares well with those in North America, but that is also small enough to ensure lots of personal attention.

You can choose to specialize in international economics, public policy economics,

financial economics, or commodity economics (particularly oil and gas). Minors in business fields such as accounting and management may also be available.

Our graduates become financial and investment analysts, market analysts, managers, entrepreneurs, commodity analysts, bankers, consultants, and government policy-makers.

Our concentration in advanced economics can prepare you for doctoral programs at the world's leading universities. We also offer a joint Master of Arts program with the University of San Francisco.

OUTSTANDING GRADUATE PROGRAMS

Master of Arts in International Journalism and Mass Communication (MAIJMC)

Prepare for an international career in Journalism and Public Relations

In today's 'Information Age,' the communications industry is the fastest-growing industry in the world. As a student in KIMEP's MAIJMC program you can specialize in either journalism or public relations, but basic communications skills are easily adapted to the needs of multiple communication careers. Indeed, with rapidly changing communications technology, KIMEP's students are encouraged to be prepared for change and for evolving opportunities.

The MAIJMC program prepares communication specialists to serve in many influential and important career positions, such as reporters and editors of newspapers, magazines, television, cable, radio, and Internet news outlets. Mass communication students may choose to take additional courses in business and economics in order to prepare to go into publishing or other mass communication businesses as owners, not just employees.

The MAIJMC program will also prepare you to go directly into lucrative public relations positions. Many top PR professionals start their careers as reporters or editors, where they can sharpen their communication skills and gain a better understanding of how to work with the news media. The importance of effective public communications in the modern world is such that KIMEP mass communication graduates find it easy to move up into top company executive positions.

The MAIJMC program will offer you the chance to develop your practical online, broadcast and print communication skills at KIMEP's unique and well-equipped media laboratory, unmatched in this region, and then to serve one or more professional internships in the community or overseas to fine-tune your skills before entering the communications profession of your choice.

Этические стандарты Би-Би-Си

2006 г.г.г., KIMEP

British Council training session in ethical journalism

OUTSTANDING GRADUATE PROGRAMS

Master of Arts in Teaching English to Speakers of Other Languages (MA in TESOL)

Preparing you to serve as a qualified and internationally recognized language instructor

The MA in TESOL is a graduate program in Teaching English to Speakers of Other Languages. The courses and research experiences draw from Applied or Educational Linguistics. This program will assist you in reviewing your teaching practices and beliefs, provide curriculum ideas and practical teaching methods that can be applied to any lesson in any subject, and introduce new assessments that will help you evaluate the academic progress of your students and consider the effectiveness of your teaching. This program provides a unique opportunity to students due to its highly qualified international faculty, its interesting and innovative course offerings and the research/practicum experiences it provides. The theoretical grounding and practical training provided by this program apply to teaching any language.

On completing this program, you will have the teaching skills, knowledge about language and literacy and practical teaching experience to pursue teaching and research opportunities in university departments and centers, international schools, the diplomatic service, government programs and agencies and international education programs.

OUTSTANDING GRADUATE PROGRAMS

Master of Business Administration (MBA) program

Education that equips you with the skills to lead

The Master of Business Administration program at KIMEP trains leaders who can manage effectively and successfully transform organizations in Kazakhstan and internationally. The MBA curriculum is based on the formats of leading American and European business schools and combines study of theoretical concepts, case methods and practical application. MBA classes are taught by an international pool of faculty members with top-level academic and professional qualifications.

The program is designed to create decision-makers (managers and entrepreneurs) and future business leaders of the highest quality. We seek to ensure that our graduates are capable of using state-of-the-art techniques to address and solve real world problems and creatively manage resources; thinking strategically and leading effectively in the fast-changing and highly competitive global marketplace; and coping effectively with changing organizational relativities and a technological and business environment that is in a constant state of flux.

At the foundation level, you will receive an integrated knowledge of all areas of business and business administration. At the advanced level, you will acquire concentrated knowledge in one or more specific areas of business administration, choosing from the following: Accounting, Finance, Marketing, Management, Operations Management, Information Systems, and International Business. You will also have the chance to choose a further specialization, allowing you to explore specific aspects of these areas in more depth.

Our outstanding alumni are the best evidence of the success of KIMEP's MBA program. Many of our MBA graduates go on to become top managers in the most successful businesses in Kazakhstan and internationally. They are recruited by leading local and international companies to positions including accounting managers and auditors, financial analysts and consultants, marketing and brand managers, human resource managers, project managers, logistics managers and business development managers.

OUTSTANDING GRADUATE PROGRAMS

Master of International Relations (MIR)

A program that trains you to think like a leader

The Master of International Relations program aims to train scholars and professionals ready to take on leadership roles in the challenging arena of world affairs, including positions within the diplomatic corps, international organizations, multinational corporations, and governmental and non-governmental organizations. The extensive research work you will undertake and the flexibility of the program help to ensure a high professional standing and give our graduates great career potential.

This program is designed to familiarize its students with both the theory and practice of contemporary global politics. To this end, courses explore the most fundamental questions of international relations, such as: What is the structure of the international system? Who are the primary actors? How do these actors behave? Why do they behave as they do? What role do international institutions play in international relations? What role do international

law and ethical considerations play? How do states formulate foreign policies? What are these foreign policies?

The MIR program provides a unique opportunity for students who wish to continue their education in the field of international relations.

As a graduate of the MIR program, you will be able to go on to launch a career in government, the diplomatic services, international organizations, the United Nations and its regional agencies, and academia.

OUTSTANDING GRADUATE PROGRAMS

Master of Laws (LLM) in International Business Law*

*The LLM program at KIMEP will be launched in Spring 2009, pending licensing by the Ministry of Education and Science of the Republic of Kazakhstan.

Come and prepare for a successful career in law

An LLM is an internationally recognized post-graduate degree in law that provides the student / practitioner with expertise in a specialized area of the law.

The LLM in International Business Law at KIMEP provides specialized knowledge and understanding of international business law to legal and business practitioners involved in international legal transactions. The program offers a solid foundation in international legal scholarship and practice through a range of courses directly related to international business law. The program is founded on four core courses: international business transactions, international dispute settlement, comparative corporations law and legal research and writing, and a skills course.

As a graduate of the LLM program at KIMEP, you will be positioned to generate strategies to reduce and avoid potential legal challenges in the contemporary business context. Graduates with an LLM in International Business Law will work in the international business sector, including in law firms with international business practice, multinational corporations, accounting firms, consulting firms, and in government and non-governmental organizations.

OUTSTANDING GRADUATE PROGRAMS

Master of Public Administration (MPA)

Preparing to serve society

The Master in Public Administration (MPA) program, one of the KIMEP's oldest programs, provides outstanding training for leaders in various sectors of government. This multi-disciplinary program offers students a unique combination of management education, program analysis and evaluation, and public policy analysis and development.

Within two years (or one year for those with relevant previous study), the MPA builds the knowledge base, decision-making capability, critical thinking, and governing expertise of managers and leaders in government, business, and the nonprofit sector.

To meet the diversity of student educational and research interests, the MPA program offers three concentrations: Public Policy, Public Management, and Financial Management. Depending on your interests and career ambitions, you can choose to

focus on a variety of public sector fields, which include economic development, community development, education, health care (especially public health), non-profit organizations, information technology, and environmental policy.

As a graduate of KIMEP's MPA program, you will be prepared to work in various fields and professional capacities, including as a budget manager, grants specialist, risk consultant, health manager, and budget and evaluation analyst. Some of our graduates choose a career in teaching, and others opt to pursue further educational opportunities abroad.

Kassymzhomart Tokaev, Minister of Foreign Affairs of the Republic of Kazakhstan, gives a lecture to KIMEP students

OUTSTANDING GRADUATE PROGRAMS

Executive MBA

A World Class Executive MBA in Kazakhstan

The Executive MBA Program at KIMEP follows North American academic standards and is delivered by KIMEP's world-class faculty. Students are senior executives with an interest in enhancing their skills and effectiveness and mid-career professionals preparing to assume leadership positions. Designed to meet executives' needs and schedules, the program delivers the core skills and knowledge required to lead companies in intensive weekend sessions. The KIMEP Executive MBA ensures you are able to focus on your learning while continuing to contribute fully to your organization.

Classes are led by KIMEP's distinguished faculty as well as by successful practitioners from the local and international business community. Faculty members in the program are carefully selected for their research excellence and experience working with industry and government. They take a global approach to their subjects,

and encourage students to think the same way. They introduce the latest management theories and help students to apply them to their environment.

Instruction in English, cutting-edge theory, global best practices and renowned faculty combine to provide you with the knowledge and skillset needed to advance your organization and your career.

The KIMEP Executive MBA aims to ensure that you deepen your understanding of business, both in theory and practice, learn to manage and lead more effectively, and improve your decision-making skills and your ability to convince and negotiate more persuasively. It will also give you the chance to network with and learn from other successful executives and open new career opportunities.

OUTSTANDING GRADUATE PROGRAMS

Doctor of Business Administration (DBA)

Attain the pinnacle of business education

The DBA is the apex of educational attainment in business education. The degree brings a new impetus to research and scholarship. It will focus on training you to design and carry out original research and help you develop an unrivalled inter disciplinary understanding of your subject. It is a multidisciplinary program, from which you will acquire a comprehensive understanding of leading-edge knowledge in business education. The DBA program will help you build skills in teaching and professional business research, and will ensure that as a graduate you are placed in a leading position in academia or business.

With a team of internationally renowned professors and researchers and extensive partnerships with some of the top business schools in the world, KIMEP is uniquely placed to deliver a high-quality doctoral program in business administration unrivalled in the region. The program is structured in line with U.S. models, comprising

two years of coursework and two years of research and a dissertation. The program is taught and supervised by KIMEP faculty and distinguished visiting scholars from leading universities and business schools worldwide.

Candidates are admitted on the basis of an outstanding educational background, proficiency in English, work experience and recommendations from referees.

Our graduates will go on to become leaders in the fields of education, international accounting and investments, management in manufacturing, merchandising and technology services, banking, insurance, management, and information systems.

FLEXIBLE NON-DEGREE STUDY

In addition to degree programs, KIMEP offers a wide range of courses and certificate programs for non-degree students in different fields and specializations. As a non-degree student, you may take any course at KIMEP for which you meet the prerequisites. Courses are offered during the day, in the evening and at weekends. In addition to more than 300 courses offered in the regular schedule, the following programs are available:

Preparatory Program

The Preparatory Program helps you to prepare for university entrance exams at both the Bachelor and Master levels. Our faculty provides expert instruction in the core disciplines tested on entrance exams like the UNT and GMAT so you can obtain the knowledge and skills that require extra attention. A range of course lengths and meeting times are offered to enable you to prepare for exams while still attending your regular daytime classes or working in a full-time job.

The World Languages Program

The World Languages program provides high-quality 'pay-as-you-study' language courses. Classes are taught by a multi-national staff, and all students have the chance to practice extensively with native speakers of the language they study. The program aims to bring the highest quality teaching and materials to its students on a schedule that is convenient for them, by offering courses outside of regular working hours.

The tailored courses on offer include English for Pre-MBA, English Grammar Classes, English for Oil and Gas, English for Law, English for Accounting, English for Banking and Finance, a TOEFL preparatory course, and an IELTS preparatory course. Regular classes include English for All, Russian, Everyday and Business French, Mandarin Chinese, Spanish and others.

KIMEP Professional Development for Educators

KIMEP's Professional Development courses provide opportunities for instructors of any

subject to improve their experience and qualifications. The courses use ideas from Applied or Educational Linguistics as the basis for teaching practices. They are designed to assist you in reviewing your teaching practices, provide curriculum ideas and practical teaching methods, and introduce new techniques to help you to evaluate the academic progress of your students and consider the effectiveness of your teaching. Certificates are awarded at the conclusion of each course.

Certificate Programs

For working professionals who want to upgrade their business and administrative skills, the College of Continuing Education offers the Open Enrollment and Certificate Program and the Professional Development Program. These programs regularly offer courses and trainings in all the business disciplines. Clients are able to choose those that will have the maximum impact on their career and organizations. Both programs grant certificates to successful participants.

The Open Enrollment and Certificate Program offers courses in the evenings and weekends so you can study without interrupting your work schedule. The Professional Development Program provides intensive daytime seminars that enable you to rapidly pick up new knowledge and skills. Training sessions are regularly scheduled or customized to your organization's needs and convenience.

AN INTERNATIONAL INSTITUTION

KIMEP prides itself on offering its students the highest quality education delivered by leading Kazakh and international academics. KIMEP is host to the largest concentration of Western Ph.D. holders of any institution in the CIS. Our faculty come from more than 20 countries and are united by the high level of their qualifications, their research excellence, and their commitment to delivering the highest possible quality of education to our students. In addition to this, KIMEP offers students numerous opportunities to expand their international horizons. KIMEP has links with more than 50 universities from all over the world, including prestigious institutions in Europe, the USA, and Canada.

An International Environment

KIMEP employs more than 90 international faculty members who hold degrees from leading North American and European universities. KIMEP also regularly hosts visiting faculty members from our international partner universities. A growing number of international students study at KIMEP, both regular students and exchange students. In the 2008-2009 academic year around 200 international students from over 20 countries, including China, Germany, the USA and the UK, are studying at KIMEP. This creates a truly international environment, in which you will

be encouraged to meet and make friends with people from all over the world.

Student Exchange Programs

As a student at KIMEP you can study at one of our international partner universities for one or two semesters. This gives you a unique opportunity to study in another country while being registered at KIMEP. Currently KIMEP offers exchange programs with the University of Massachusetts, the University of Nevada at Reno and the University of Wyoming (USA), Tilburg University and the University of Amsterdam (the Netherlands), Lund University (Sweden), the Aarhus School of Business (Denmark), Algarve University (Portugal), Humboldt University (Berlin) and Korea University Business School (South Korea). Taking part in an exchange program will enable you to gain valuable international experience, make new friends all over the world, improve your English and study other languages. In the 2008-2009 academic year more than 100 KIMEP students were selected for exchange programs. About a quarter of these students received scholarships ranging from free accommodation to free travel and monthly stipends.

COLLEGES AND DEPARTMENTS

KIMEP is divided into six distinct academic units. Academics are overseen by a Vice-President for Academic Affairs and an Associate Vice-President for Academic Affairs.

The School of General Education offers a variety of courses in different fields, ensuring that undergraduate students receive a broad knowledge base as part of their degree course.

Dean: Kathy Parkison. Nationality: USA. Education: Ph.D. in Industrial Organization, Econometrics and International Economics, Purdue University, IA, USA.

The College of Social Sciences is divided into four departments, offering degrees in Journalism and Mass Communication, Political Science and International Relations, Economics, and Public Administration. The Department of Public Administration is a member of NASPAA - The National Association of Schools of Public Affairs and Administration, and the Department of Political Science is a Member of APSA – The American Political Science Association.

Acting Dean: Mostafa Golam. Nationality: Canada. Education: Ph.D. in Political Science and International Relations, Karleton University, Ottawa, Canada

The Bang College of Business is divided into four departments offering degrees in Business Administration with specializations in Finance, Accounting, Management and Marketing, and Operations Management and Information Systems. The College is a member of AACSB - The Association to Advance Collegiate Schools of Business. www.aacsb.edu/about/

Dean: Sang Hoon Lee. Nationality: Korea / USA. Education: Ph.D. in Financial Economics, The University of New Orleans, LA, USA.

The Language Center offers a Master program in Teaching English to Speakers of Foreign Languages and non-degree courses in a variety of

world languages including English and Russian for foreigners.

Director: Kenneth Saycell. Nationality: South Africa. Education: MA in English, Rhodes University, Grahamstown, South Africa.

The School of Law offers a minor in law for undergraduate students and, pending licensing, will offer an LLM in International Business Law starting in Spring 2009.

Director: John Wright. Nationality: USA. Education: Ph.D. in Public School Administration (ABD), University of Mississippi, MS, USA.

The College of Continuing Education offers programs to prepare students to sit university entrance exams and to be successful in their university studies. It also provides certificate programs for working professionals hoping to hone specific business skills and increase the contribution they make to their organization.

Dean: Albert Lang. Nationality: Canada. Education: MBA, University of British Columbia, Canada

Computer and Information Systems Center (CISC) executes the technical support and implementation of new technologies into the educational process, research and administrative operations of KIMEP.

The program of information technologies courses helps students to master the knowledge in the sphere of IT, to enhance their effective understanding and further use.

Director: Galina Stepanova. Citizenship: Kazakhstan. Education: Diploma in the sphere of the computer sciences. Kazakh National Technical University named after K.I. Satpayev.

A STATE-OF-THE-ART CAMPUS

KIMEP is situated on a green leafy campus spread over an entire city block in the center of Almaty. A concerted program of capital investment over the past five years has seen the campus transformed into a state-of-the-art center for teaching and learning.

Library

A brand new, purpose-built research library was opened in 2005. With over 90,000 volumes and subscriptions to nine international e-resource databases, it is the first facility of its kind in Central Asia. It also has reading rooms on several levels, conference facilities and several computer suites.

Teaching Facilities equipped with the latest in IT and Multimedia Support

KIMEP is committed to offering its students the latest in multimedia teaching and learning technology. We have 75 modern computerized classrooms with LCD projectors as well as several auditori-

ums with Smart Desks. KIMEP opened a new \$10 million academic building in April 2008. Designed with the institution's needs firmly in mind, it represents another world-class addition to KIMEP's campus. All computer labs and self-study areas at KIMEP have computers connected to the KIMEP Local Area Network and to the Internet, and there are wireless Internet networks at various key locations on campus. The overall student to computer ratio at the institution is ten to one. The computer laboratories are open early in the morning till late at night, seven days per week. KIMEP also has an online registration system, the first of its kind in the region.

Recreational Facilities

KIMEP has a modern student center, which hosts cultural, social and leisure activities including concerts and parties for students and guests. The Great Hall seats 500 and hosts events including films, concerts, drama productions and the annual Miss and Mr. KIMEP Contests.

STUDENT SERVICES

Student Accommodation

KIMEP has a recently refurbished student dormitory with places for 424 students, conveniently located right on campus. Students live two to a room in comfortable and clean rooms spread over four floors. Laundry services, study lounges, a billiard room, DVD and television rooms, a hair-dresser's salon, and kitchens are available for student use 24 hours a day. Dining services are available for breakfast, lunch and dinner, as is a computer laboratory with 24 terminals. Utilities such as cable television, telephones, electricity and water are provided at no extra charge.

Priority in allocating dormitory places is given to international students and Kazakhstani students not resident in Almaty. KIMEP makes all possible efforts to ensure that newly admitted international and non-Almaty students are given a

dormitory place for their first year. In 2007-8, 100% of all Freshmen who applied for a place in the dormitory in their first semester were allocated one.

Student Dining Facilities

Students have a choice of dining facilities on campus, including the KIMEP Grill, which offers both sit-down and cafeteria-style dining at affordable prices, a cafeteria in the dormitory, and two coffee shops.

Health and Security

KIMEP has a modern medical center that caters to the needs of students, both those who are resident in the dormitory and those who live off-campus. The KIMEP campus is guarded around the clock by professional security personnel who ensure that students and staff have a safe and secure environment in which to work and study.

A VIBRANT STUDENT LIFE

At KIMEP we believe that personal development that occurs outside the classroom is as important as what is learned inside the classroom. KIMEP aims to foster an environment in which students are encouraged to further their intellectual and personal development both in class and out.

Student Organizations

Student Organizations play a vital role at any academic institution. Currently, there are nearly 30 Student Organizations registered at KIMEP, organizing activities in fields including entrepreneurship, journalism, diplomacy, debating, arts, cinema, theatre, politics, cheerleading, entertainment, and charity work. Among the most popular student events are KVN competitions and the annual Miss KIMEP contest. As a student at KIMEP you are encouraged to not only participate in the activities on

offer, but to form your own student organizations to explore your extracurricular interests to the full.

Student Publications

KIMEP students are involved in the production and publication of several publications that circulate widely on campus, including the KIMEP Times newspaper and KIMEP Pie magazine.

A VIBRANT STUDENT LIFE

Sport

KIMEP takes sports seriously. Students benefit from a fully-equipped sports complex, including a gym, an indoor basketball court and a floodlit all-weather outdoor football pitch. KIMEP teams compete in local, regional, and international competitions in various sports, and can also play in several internal leagues. KIMEP is unique in being home to Kazakhstan's only university American football team, the Titans.

Student Participation in KIMEP's Affairs

Whenever possible KIMEP encourages students to participate in the development of policies and procedures at their Institution. Every year students elect a Student Government, whose representatives sit on many of the most important committees and represent the interests of the students to KIMEP's administration.

Kazakhstan's only American football team

FINANCIAL AID

KIMEP is committed to ensuring equality of opportunity for talented students no matter what their financial situation: the institution controls a \$1.5 million scholarship fund used to support students from unprivileged backgrounds in their studies.

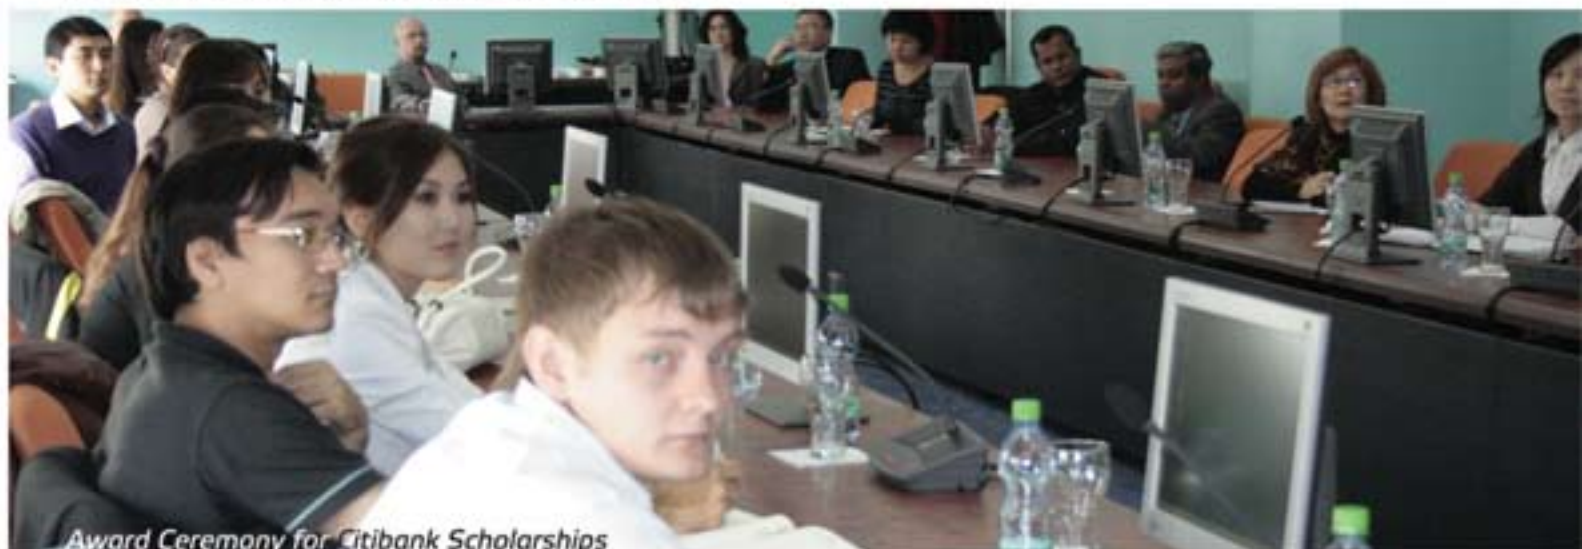

KIMEP offers a variety of scholarships and discounts from its own funds based on outstanding academic performance and proven financial need. These include scholarships for newly admitted students (the Nursultan Nazarbayev Scholarship, the Altyn Begi Scholarship, and the International Students Scholarship); scholarships and stipends for current students (the KIMEP Presidential Scholarship, the KIMEP Dean's Scholarship, and the Stipend of the President of the Republic of Kazakhstan); Work-Study Tuition Discounts (for children of pensioners, children from single parent families, orphans, and students from the same family); and other financial support through the Orientation Work-Study Program. There is also a Tuition Waiver Program for KIMEP employees and their children.

KIMEP is also proud of its established corporate scholarship programs with international companies such as Kookmin Bank, Procter & Gamble, CitiBank, AGIP, Pricewa-

terhouseCoopers, Deloitte, ACCELS and leading Kazakhstani businesses such as Bank TuranAlem, Kazkommertsbank, Kazmunaigaz, Tengizchevroil, KPO, Karazhanbasmunai, and many others.

In 2007-8 a total of 15% of all students at KIMEP received some form of financial aid. This figure represents 73% of those who applied for financial aid. One in five students who received financial aid were allocated a 100% scholarship or tuition waiver, a figure which represents nearly 200 students, or 4% of the total student population. KIMEP is continuously working to increase the various grants and scholarships students receive from sponsors and foundations.

In addition to the above mentioned scholarships, KIMEP encourages all students to actively seek out other possible ways to obtain funding to study at KIMEP, including bank loans and external sponsorship and grants.

Award Ceremony for Citibank Scholarships

INVEST IN YOUR FUTURE

A KIMEP education gives you a head start to your career unrivalled in Kazakhstan and Central Asia. KIMEP graduates continue to dominate on the Central Asian job market, consistently finding employment in key positions in both local and foreign companies, and also work successfully abroad, drawing on the skills they learned at KIMEP. Employer satisfaction surveys show that companies choose KIMEP graduates above others due to their high level of professional preparation and their language skills. The value of a KIMEP education is attested to by the fact that 95% of KIMEP graduates find employment within three months of finishing their studies.

Support Throughout Your Career

As a KIMEP student, you will enjoy the full support of your alma mater, not just during your time as a student here, but also after you graduate. KIMEP has a dedicated Career and Employment Center, which provides a comprehensive range of services to our students, both while they are studying and following their graduation. The support offered by the Career and Employment Center is one more factor that contributes to the uniquely high rate of employment enjoyed by KIMEP students and graduates.

Companies and Organizations which currently employ KIMEP graduates include:

The Ministry of Foreign Affairs	Air Astana
The Canadian Embassy	ATF Bank
The Council of Foreign Investors under the President of the Republic of Kazakhstan	The American Chamber of Commerce Kazakhstan
The Eurasia Foundation	British American Tobacco
UNHCR	BTA Bank

START YOUR FUTURE NOW

Overview of the Application and Admission process

KIMEP seeks to enroll students who have demonstrated the potential to succeed and have shown evidence of their ability to contribute to their community. KIMEP does not discriminate against any individual or group on the basis of race, nationality, religion, gender, social or sexual orientation, marital status, physical disabilities, age or any other subjective criteria. KIMEP is committed to a policy of equal opportunity for admission to all qualified individuals.

KIMEP has clear and transparent application and admission procedures for all applicants. We welcome applications at any time during the year.

You can find out more about KIMEP and our programs in a variety of ways:

- By visiting our website at www.kimep.kz
- By attending Open House Days (dates and locations are usually announced in advance

at www.kimep.kz/admission -> Open House Days)

- By attending a scheduled campus tour (sign up with the Admission Office)
- By making a personal appointment with your regional Admission Officer
- By making an appointment with a college or program representative, with the College Advising Centers or the Financial Aid staff (through your regional Admission Officer)
- By visiting KIMEP at any time that is convenient for you
- By talking to KIMEP students or alumni

Recruitment teams travel around Kazakhstan and abroad holding information sessions and entrance exam (a detailed schedule of planned trips is available at www.kimep.kz/admission -> Recruitment trips; Entrance Exam dates).

START YOUR FUTURE NOW

How to enter to KIMEP – five major steps

Step 1 – Prepare the application documents

Students applying for undergraduate study must submit a completed application form, a copy of their passport or national ID card, a copy of their high school diploma and a transcript of the marks they obtained in the 9th-11th grades. Some programs require applicants to submit further documentation.

Applicants are encouraged to submit any certificates, prizes and awards they have received for academic and extra-curricular activities in support of their application. Recommendation letters from teachers are optional.

Applicants for graduate programs are required to submit a completed application form, their university diploma, a CV, an essay, and two letters of recommendation. Some programs require applicants to submit further documentation.

Step 2 – Submit the application package and pay the application fee

Once your application package is complete, please send it to us by any of the following means:

1. Apply online:
<http://www.kimep.kz/admission> > Apply online
2. Send scanned copies of the documents by e-mail to application@kimep.kz
3. Send the documents by mail or bring to **The Admission Office, KIMEP, 4 Abay Ave., 050100, Almaty, Kazakhstan.**

Applicants are encouraged to submit their application package online. When applying

online, original documents can be submitted upon admission.

All applicants are required to pay the application fee, regardless of citizenship or the program they are applying for. Payment of the application fee can be made by bank transfer, in which case payment details should be sent with the application package. For more information on payment please see www.kimep.kz/admission -> Application fee.

Step 3 – Take the entrance exams

Check your application status online (www.kimep.kz/admission -> Your application status) or with your Admission officer. Once your application has been received, you will be invited to sit the KIMEP entrance exams (held in Almaty and other major cities in Kazakhstan). All applicants will need to take the KIMEP English Entrance Exam or submit valid official TOEFL/IELTS scores. Kazakhstani applicants for undergraduate programs will need to submit a valid Unified National Test/National Complex Test certificate showing they have obtained the passing scores set by the Ministry of Education for the year in which they sat the test (the Mathematics section is a "specialized" subject for KIMEP). International applicants may submit SAT/ACT or any other equivalent test, or sit the KIMEP Undergraduate test for International Applicants during one of the entrance examination sessions organized by KIMEP (information about dates and locations of exams can be found at www.kimep.kz/admission -> Entrance Exams dates)

The graduate entrance exams usually include the KIMEP English Entrance Exam

START YOUR FUTURE NOW

How to pay for your study at KIMEP

and a Graduate Entrance Test/essay depending on a program. An interview may be part of the selection process for some graduate programs.

Depending on academic standing and results of entrance examinations, some newly accepted students may be required to take pre-degree courses like Math and/or English courses during the Summer prior to the Fall semester.

Step 4 – Find out the Admission decision

The results of the entrance exams as well as the Admission decision are available online and from your Admission Officer. The criteria for admission to both undergraduate and graduate programs include academic standing, knowledge of English, and potential to succeed within a specific program. Admission decisions are taken at the program/college level and then at the KIMEP level.

Step 5 – Register for courses

All accepted students will be sent (or can collect from KIMEP) a package for newly admitted students that includes information on orientation, advising, schedule and payment, registration for pre-degree in Summer and degree courses in Fall, the medical check, and major policies and procedures. Before registering for courses you will need to submit the originals of your academic documents and a medical certificate. After all your original documents have been delivered to KIMEP and you have paid your tuition fee, you will be able to register for courses online.

Fall classes usually start in late August.

Tuition at KIMEP is paid based on the number of courses a student registers for in any given semester. Students can opt to take between one and six courses per semester depending on their personal preference and study plan.

Tuition can be paid in three installments for the Fall and Spring semesters, allowing students to make payments on an almost monthly basis* (please check the academic calendar; www.kimep.kz/admission -> Academic calendar).

A fixed discount will apply for students who choose to pay for a year in advance.

KIMEP also awards various types of financial aid in the form of grants, tuition discounts and work-study opportunities, and makes all possible efforts to help students who are unable to pay.

*Payment for summer semesters and non-degree studies as well as for the Executive MBA program are to be paid 100% in advance before the semester starts.

KEY FACTS AND STATISTICS

Established January 1, 1992 by resolution of His Excellency the President of the Republic of Kazakhstan, Nursultan Nazarbayev

National Ranking

In 2006 and 2007, KIMEP rated first among all humanities and economics schools in Kazakhstan in an independent evaluation by the National Accreditation Center of the Ministry of Education.

Alumni Employment Statistics

Ninety-five percent of KIMEP's 2007 graduates found employment within three months of graduation. Of these, 37% were employed in the audit sector, 14% in trade, 11% in banking, as well as large numbers in the media, finance, oil and gas and education sectors. Many of our students also found employment in government.
